Upcoming Events:

Saturday May 10th...Canal Day...12:00 noon...at Erie Canal Park in Camillus

Monday May 12th...Advisory Council Mtg...5:30...Coppertop on Milton Ave.

Success Story:

On Saturday, April 26th, a bus and van load of bigs and littles headed west on I-90 to spend a day at the Imagine RIT event. Approximately 15 bigs, 25 littles and 10 of their family members made the trip to enjoy a day of learning and exploration.

Imagine RIT: Creativity and Innovation Festival is a campus-wide event that showcases the creative and innovative spirit of RIT students, faculty, and staff.

Visitors of all ages experience the breadth and depth of RIT through interactive presentations, hands-on demonstrations, exhibitions, performing arts, and research projects set up throughout campus.

On this day the entire campus was full of presentations, exhibits, demonstrations, experiments and interactive opportunities for our people to engage in, all in the theme of technology, as well as entertainment, snacks and food. All of our littles got to see what a college campus is like and how students live and learn there.
